¹ See References in Text note below.

(d) Trade facilitation and capacity building**(1) Findings**

Congress makes the following findings:

(A) As a land-locked least-developed country, Nepal has severe challenges reaching markets and developing capacity to export goods. As of 2015, exports from Nepal are approximately \$800,000,000 per year, with India the major market at \$450,000,000 annually. The United States imports about \$80,000,000 worth of goods from Nepal, or 10 percent of the total goods exported from Nepal.

(B) The World Bank has found evidence that the overall export competitiveness of Nepal has been declining since 2005. Indices compiled by the World Bank and the Organization for Economic Co-operation and Development found that export costs in Nepal are high with respect to both air cargo and container shipments relative to other low-income countries. Such indices also identify particular weaknesses in Nepal with respect to automation of customs and other trade functions, involvement of local exporters and importers in preparing regulations and trade rules, and export finance.

(C) Implementation by Nepal of the Agreement on Trade Facilitation of the World Trade Organization could directly address some of the weaknesses described in subparagraph (B).

(2) Establishment of trade facilitation and capacity building program

Not later than 180 days after February 24, 2016, the President shall, in consultation with the Government of Nepal, establish a trade facilitation and capacity building program for Nepal—

(A) to enhance the central export promotion agency of Nepal to support successful exporters and to build awareness among potential exporters in Nepal about opportunities abroad and ways to manage trade documentation and regulations in the United States and other countries;

(B) to provide export finance training for financial institutions in Nepal and the Government of Nepal;

(C) to assist the Government of Nepal in maintaining publication on the Internet of all trade regulations, forms for exporters and importers, tax and tariff rates, and other documentation relating to exporting goods and developing a robust public-private dialogue, through its National Trade Facili-

tation Committee, for Nepal to identify timelines for implementation of key reforms and solutions, as provided for under the Agreement on Trade Facilitation of the World Trade Organization; and

(D) to increase access to guides for importers and exporters, through publication of such guides on the Internet, including rules and documentation for United States tariff preference programs.

(e) Reporting requirement

Not later than one year after February 24, 2016, and annually thereafter, the President shall monitor, review, and report to Congress on the implementation of this section, the compliance of Nepal with subsection (b)(1), and the trade and investment policy of the United States with respect to Nepal.

(f) Termination of preferential treatment

No preferential treatment extended under this section shall remain in effect after December 31, 2025.

(g) Effective date

The provisions of this section shall take effect on the date that is 30 days after February 24, 2016.
